EzSeries: EzDent-i to CleverOne Conversion:

IT team should complete updates for EzServer prior to NEW installation or Upgrade.
I.T. should see the following instructions on updating to CleverOne on FAQ guidance

Step 1: Ensure proper backups before starting.

https://vatechamerica.com/faq/software/how-to-backup-ezdent-i-software

Step 2: Download the following files before proceeding:
A. DOWNLOAD CLEVER ONE:
https://vatechamerica.files.com/f/357917281b8138f1/Clever%20One

B. DOWNLOAD IMPLANT LIBRARY:
https://vatechamerica.files.com/f/21c069ec449c4404/Implant%20Data

Step 3: Follow the CleverOne Guide: *Updating EzServer to version 6.2.3*

https://vatechamerica.com/faq/software/CleverOne

Step 4: If the database needs to be moved to a different PC/Server follow the migration guide:

Migration Guide for EzServer Series 6 and higher: Please note that EzServer 6.2.3, Consult Data and Implant Data will need to be installed on the New Server. Old server should be updated to at least 5.5.3 or newer but it is recommended to update to EzServer 6.2.3 with backup each update step.
